

## **Gym for Workers**

A gym was built at the Myohyangsan Medical Appliances Factory, which was renovated on the occasion of the 75<sup>th</sup> founding anniversary of the Workers' Party of Korea.

The gym is multi-functional as it can accommodate various sports events including volleyball, basketball and table-tennis as well as artistic performances.

When factories or enterprises are newly built or renovated in the Democratic People's Republic of Korea, the country sees to it that they are equipped with gyms or playgrounds.
