Eternal Father of People

For our people Chairman Kim Jong Il was rather the benevolent father of the large family of our country than the leader.

There are words deeply inscribed in the mind of all our people.

Family of General, these words bear the pride and dignity of life through which we carried out the revolution upholding the peerlessly great man as the father of the nation as well as the burning desire and intensive aspiration of our people to venerate Chairman Kim Jong Il as the eternal father of our people for all ages.

The respected General Secretary Kim Jong Un said with deep emotion that believing in people as in heaven was the Chairman's lifetime motto and his noble intention and will cherished deep in his mind that one should pluck even a star and bring a flower into bloom even on a rock if the people want.

Together with December we bear in mind the glory and happiness and matchless pride and self-confidence of having made the revolution under the leadership of the Chairman, the great leader of our people and the benevolent father.

In any storm and stress, our people will invariably continue to go along the road of revolution to the end, keeping in mind the ties of kinship with the Chairman, though one generation is replaced with another.

Our people will surely achieve all sorts of happiness envied by the world, sharing their destiny with the respected General Secretary Kim Jong Un as members of the family of Chairman Kim Jong Il.

Chairman Kim Jong Il's Great Life Dedicated to People's Wellbeing

Pyongyang, December 15 (KCNA) -- "Song of Love for People" is a song telling Chairman Kim Jong Il's warm love for the people. With the anniversary of his demise approaching, the people in the DPRK sing the song in earnest with their ardent yearning for him.

There is a saying that time expunges everything from one's memory. However, the Korean people are unanimous in saying that they could not forget the Chairman's noble love for the people and their yearning for him grows stronger as the times go by.

One day in September Juche 100 (2011), the Chairman visited the newly built Pothongmun Street Fish and Meat Shop and came to know about people's view of the processed meat products before anything else. At that time, an official of the shop said with a mind to give pleasure to him that they are in great demand among foreign embassy members.

Then, the Chairman asked again if our citizens liked them. The official replied that those products are favored by the citizens, women in particular. Just then, he expressed his satisfaction.

That day, he also visited the Pothonggang Shop serving citizens with various kinds of fruits on the opposite side. After going round the shop, he said with a bright smile on his face that he recovered from his pent-up fatigue.

Indeed, the happiness of the people is just his pleasure and delight.

That's why Chairman Kim Jong Il is still kept in the mind of the Korean people as a benevolent father. -0-
