

First Saplings Farm in the DPRK

This is Tree Nursery No. 122, which was built into a model and an example of tree nursery and a saplings farm, the first of its kind in the country.

Covering a total area of 200 hectares, the nursery has saplings production on a scientific, industrial and intensive footing. It produces more than 20 millions of saplings every year and sends them to the places of forest restoration in different part of the country.
