

“Let’s Always Be Ready!”

In late December 2022 the Ninth Congress of the Korean Children’s Union was held to discuss and decide on important issues for strengthening and developing the organization.

The congress discussed the issues of preparing all KCU members into dependable pillars by encouraging them to study hard, participate in the organizational life sincerely and take an active part in do-good-deeds movements.

Through the KCU life, the Korean children appreciate how precious their collective and comrades are and learn how to devote themselves for the development of their country and society. Holding high the slogan, “Let us learn for Korea!” they are preparing themselves into reliable pillars of their country by studying hard and acquiring noble moral traits and sturdy physique.

“Let’s always be ready for the socialist homeland!”—this is the aspiration of KCU members.
