Scientific Character and Veracity of the Socialist Theory of Juche

Dear comrades,

I would like to send you all comradely greetings on the 25th anniversary of the publication of the work *Socialism is a Science* by our Dear Leader Comrade Kim Jong Il, eternal General Secretary of the Workers' Party of Korea and eternal Chairman of the National Defence Commission of the Democratic People's Republic of Korea.

Our Dear Leader wrote this great work just months after our Great Leader Comrade Kim Il Sung passed away, the 8th of July of Juche 83 (1994), while he was working hard to carry the revolutionary cause of Juche, the socialist cause, to victory. The Korean people was also undergoing the Arduous March and the Forced March due to recurrent natural disasters, the persistent pressure made by the US and its satellite countries, and because socialism was frustrated in a number of countries.

However, our Dear Leader Comrade Kim Jong Il continued with the path of our Great Leader, building socialism in the hardest times for the international communist movement in history. Korea achieved many victories maintaining the Red Flag flying high, proving in the face of the imperialists the scientific character and veracity of the socialist theory of the Juche Idea.

Even though a quarter of a century has already passed since the publication of this great classic work, its vitality continues until today thanks to our Dear Respected Comrade Kim Jong Un, who

continues building a powerful socialist country under the banner of modeling the whole society on Kimilsungism-Kimjongilism, guiding to victory the socialist revolution, together with the patriotic line of national reunification, making tremendous efforts to safeguard peace and stability on the Korean peninsula.

Socialist Korea is a vivid example for all the workers of the world, where the socialist theory of Juche, the genuine socialism, is the lifeline and soul of the people.

Trever Aritz Ubillos Hill

International Commissar of the Korean Friendship Association President of the Juche Idea Study Group of the Basque Country Donostia-San Sebastián, Basque Country, Spain

25th of September, Juche 108 (2019)
